BETTER
OUTCOMES
THROUGH
EXPERIENCE

In the current economic environment, the voluntary administration regime represents a powerful and flexible tool for distressed corporate entities to deal with legacy issues. A proactive approach by directors in applying the regime early with an experienced insolvency practitioner maximises the opportunity to resolve financial problems and survive.

- Andrew is a registered liquidator, official liquidator and principal of BRI Ferrier with 24 years of insolvency experience with expertise in the property, construction, retail and mining sectors. He also has particular experience in insurance broking and recruitment.
- His focus in recent years has been advising financiers on their exposures, providing reconstruction services to both companies and financiers, and where required, accepting formal appointments.
- Andrew is known for his skills in negotiating commercially practical solutions where other stakeholders involved have conflicting aims and desired outcomes. His approachability and straightforward nature are key attributes when executing the best available strategy for his clients.
